Farmer Bros. Co. Reports Fourth Quarter and Fiscal 2022 Financial Results

NORTHLAKE, Texas, September 1, 2022 (GLOBE NEWSWIRE) -- Farmer Bros. Co. (NASDAQ: FARM) (the "Company") today reported financial results for its fourth quarter and fiscal year ended June 30, 2022 ("fiscal 2022").

Fourth Quarter Highlights:

- Net sales were \$123.0 million, an increase of \$20.1 million, or 20%, from the prior year period due to notable improvement in the direct-store-delivery ("DSD") and Direct Ship channels
- Gross margin increased to 28.4% from 27.6% in the prior year period
- Net loss was \$3.8 million compared to \$4.0 million in the prior year period
- Adjusted EBITDA was \$6.1 million compared to \$3.4 million in the prior year period*
- As of June 30, 2022, total debt outstanding was \$108.6 million and cash and cash equivalents was \$9.8 million

Fiscal 2022 Highlights:

- Net sales were \$469.2 million, an increase of \$71.3 million, or 18%, from the prior year due to continued improvement in DSD and Direct Ship channels
- Gross margin expanded to 29.2% showing marked improvement from 25.4% in the prior year
- Net loss was \$15.7 million compared to a net loss of \$41.7 million in the prior year
- Adjusted EBITDA was \$19.1 million compared to \$16.6 million in the prior year*
- Successfully completed key initiatives within the Company's optimization strategy, including:
- Increased production and packaging capacity at the Northlake, Texas facility;
- Efficiently served our West Coast network from the newly opened Rialto, California distribution center;
- o Optimized DSD network for revenue growth and distribution optimization; and
- Launched Revive Service and Restoration for service excellence in commercial brewing equipment ("CBE")

(*Adjusted EBITDA, a non-GAAP financial measure, is reconciled to its corresponding GAAP measure at the end of this press release.)

Deverl Maserang, Chief Executive Officer, commented, "Our fourth quarter and fiscal year-end marks the beginning of our inflection from business recovery to renewed growth. Q4 sales grew 20%, gross margin expanded by 80 basis points, and Adjusted EBITDA increased 79% over the prior year Q4, as our optimized platform began demonstrating the operating leverage we've built into the business. Though economic uncertainty remains a modest near-term restraint on our progress, we believe we're now turning the corner and moving into a more normalized business environment. Sales are gaining momentum, and we are executing new growth opportunities to expand our platform in multiple directions. Overall, we are excited to see that many of our optimization initiatives have materialized as our current growth-facing initiatives begin to take hold. We remain optimistic about where we can take Farmer Brothers in our fiscal 2023 year and the years to come."

⁽¹⁾ EBITDA, EBITDA Margin, Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP financial measures; a reconciliation of these non-GAAP measures to their corresponding GAAP measures is included at the end of this press release.

⁽²⁾ Includes initiatives related to the consolidation of the Hillsboro and Portland facilities in fiscal 2022 and Houston facility exit and opening of the Rialto distribution center in fiscal 2021.

Net sales in the fourth quarter of fiscal 2022 were \$123.0 million, an increase of \$20.1 million, or 20%, from the prior year period. The increase in net sales was driven primarily by continued recovery from the COVID-19 pandemic.

Our Direct Ship channel sales improved 19.3% during the fourth quarter of fiscal 2022 compared to the prior year period. This was mainly due to the recently optimized customer base and recovery from the impact of the COVID-19 pandemic by some of our larger Direct Ship customers.

Gross profit in the fourth quarter of fiscal 2022 was \$34.9 million, an increase of \$6.5 million, or 23.0% from the prior year period and gross margin increased to 28.4% from 27.6%. The increase in gross profit was primarily driven by higher net sales partially offset by higher freight costs due to global supply chain challenges and higher product costs. The increase in gross margin was due to the effect of the continued recovery from COVID-19 on DSD channel sales because the DSD channel has higher margins. The increase was also attributable to a decline in our unfavorable production variances and inventory scrap write-downs due to the closure of our aged Houston, Texas plant during the fiscal year ended June 30, 2021 ("fiscal 2021"). The price increases and delivery surcharges implemented across our DSD network during fiscal 2022 helped mitigate the impact of higher supply chain and product costs.

Operating expenses in the fourth quarter of fiscal 2022 increased \$4.7 million, or 13.6%, to \$39.2 million, from \$34.5 million in the prior year period, but decreased as a percentage of net sales to 31.9% compared to 33.6% of net sales in the prior year period. The increase in operating expenses was primarily due to a \$1.3 million increase in selling expenses and \$1.8 million increase in general and administrative expenses and \$1.6 million increased loss from sale of assets due to lower proceeds in fiscal 2022 compared to the prior period. The increase in selling costs was primarily due to variable costs, including payroll, associated with the higher sales volumes, as well as operating costs associated with our new distribution center in Rialto, California. The increase in general and administrative expenses in fiscal 2022 was primarily due to third party costs related to several supply chain optimization initiatives. The increase in payroll in both and selling and general and administrative expenses was predominately due to the expiration of the temporary 15% reduction in base salaries and the expiration of the 401(k) cash match suspension under the Farmer Bros. Co. 401(k) Plan, which were both cost saving measures implemented in prior years in response to the COVID-19 pandemic.

Interest expense in the fourth quarter of fiscal 2022 decreased \$4.4 million to \$2.4 million from \$6.8 million in the prior year period. The decrease in interest expense was due to lower interest rate under our revolver and term loan credit facilities, and favorable interest rate swap activity.

Also, during the fourth quarter of fiscal 2021, we announced the amendment of our post retirement death benefit plan effective immediately. The announcement triggered a re-measurement and resulted in settlement gains of \$6.4 million in the three month period ended June 30, 2021, included in other, net.

As a result of the foregoing factors, net loss was \$3.8 million in the fourth quarter of fiscal 2022 as compared to a net loss of \$4.0 million in the prior year period.

Adjusted EBITDA was \$6.1 million in the fourth quarter of fiscal 2022, as compared to \$3.4 million in the prior year period, and Adjusted EBITDA Margin was 4.9% in the fourth quarter of fiscal 2022, as compared to 3.3% in the prior year period.

Our capital expenditures for the fourth quarter of fiscal 2022 were \$6.3 million compared to \$2.3 million for the same period a year ago. The increase was due to higher maintenance capital spend on coffee brewing equipment purchased for our DSD customers as volumes have improved since last year. Several key initiatives put in place, including a focus on refurbished CBE to drive cost savings, have helped reduce our coffee brewing equipment purchases as DSD sales volumes improved.

As of June 30, 2022, the outstanding debt on our revolver and term loan credit facilities was \$63.0 million and \$45.6 million, respectively, a combined increase in our total debt balance of \$17.6 million compared to June 30, 2021. Our cash decreased by \$0.4 million to \$10.0 million as of June 30, 2022, compared to \$10.4 million as of June 30, 2021. The net reduction in our liquidity during fiscal 2022 was due to our investment in inventory as our sales volumes continue to recover and payments due in connection with our fiscal 2021 employee incentive program. These impacts were partially offset by the receipt of cash proceeds from the sale of three branch properties during fiscal 2022, as well as realized hedging gains.

Non-GAAP Financial Measures:

EBITDA Margin, Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP (U.S. generally accepted accounting principles) financial measures within the meaning of the rules of the Securities and Exchange Commission ("SEC"). See the Non-GAAP Financial Measures section on why the Company believes these supplemental measures are useful, reconciliations to the most directly comparable GAAP measure, and the limitations on the use of these supplemental measures.

Non-GAAP Financial Measures

In addition to net (loss) income determined in accordance with U.S. generally accepted accounting principles ("GAAP"), we use the following non-GAAP financial measures in assessing our operating performance:

"EBITDA" is defined as net (loss) excluding the impact of:

- income tax (benefit) expense;
- interest expense; and
- depreciation and amortization expense.

"EBITDA Margin" is defined as EBITDA expressed as a percentage of net sales.

"Adjusted EBITDA" is defined as net (loss) excluding the impact of:

- income tax (benefit) expense;
- · interest expense;
- · depreciation and amortization expense;
- ESOP and share-based compensation expense;
- net gains from sales of assets;
- · strategic initiatives;
- · severance costs;
- impairment of fixed assets;
- non-recurring costs associated with the COVID-19 pandemic and severe winter weather; and
- postretirement benefits gains curtailment and pension settlements charge.

For purposes of calculating EBITDA and EBITDA Margin and Adjusted EBITDA and Adjusted EBITDA Margin, we have excluded the impact of interest expense resulting from the adoption of ASU 2017-07, non-cash pretax pension and postretirement benefits resulting from the amendment and termination of certain Farmer Bros. pension and postretirement benefits plans and severance because these items are not reflective of our ongoing operating results

We believe these non-GAAP financial measures provide a useful measure of the Company's operating results, a meaningful comparison with historical results and with the results of other companies, and insight into the Company's ongoing operating performance. Further, management utilizes these measures, in addition to GAAP measures, when evaluating and comparing the Company's operating performance against internal financial forecasts and budgets.

We believe that EBITDA facilitates operating performance comparisons from period to period by isolating the effects of certain items that vary from period to period without any correlation to core operating performance or that vary widely among similar companies. These potential differences may be caused by variations in capital structures (affecting interest expense), tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses) and the age and book depreciation of facilities and equipment (affecting relative depreciation expense). We also present EBITDA and EBITDA Margin because (i) we believe that these measures are frequently used by securities analysts, investors and other interested parties to evaluate companies in our industry, (ii) we believe that investors will find these measures useful in assessing our ability to service or incur indebtedness, and (iii) we use these measures internally as benchmarks to compare our performance to that of our competitors.

EBITDA, EBITDA Margin, Adjusted EBITDA and Adjusted EBITDA Margin, as defined by us, may not be comparable to similarly titled measures reported by other companies. We do not intend for non-GAAP financial measures to be considered in isolation or as a substitute for other measures prepared in accordance with GAAP.
